HIC Meter Platinum ASTM

- Fully complies with the ASTM 1292 standard
- Delivery includes calibrated sensors
- Used by inspection companies, testing institutes and certification bodies worldwide
- Reliable measurements, very easy to use

HIC Meter Platinum ASTM

Description

HIC Meter Platinum ASTM

Wireless Value has developed a wireless version of the HIC meter for the inspection, testing and certification of playground surfacing. This Platinum version fully complies with the US ASTM standard. The package includes the HIC meter, charger, handle, PC application, sensors calibrated in accordance with EN ISO/IEC 17025, and a storage case. Our wireless HIC meters are used worldwide by local authorities, inspection companies, testing institutes and certification bodies, simply because our HIC meters are head and shoulders above the rest in terms of technology, accuracy and ease of use.

Wide range of models

We incorporate our customers' feedback into the development of our meters. That's why we always have exactly the right HIC meter to take all the hassle off your hands.

ASTM 1292

Specifically for the US market, Wireless Value now also offers an HIC meter compliant with the ASTM standard. The sensors are EN 17025-calibrated.

Ease of use

Our meters provide rapid measurements that can be read instantly and easily via an app.

Market leader

The quality of our HIC meters is evident from the fact that they are used worldwide by major companies and organisations for reliable measurements.

Innovative

Our HIC meters are equipped with the latest technology. You can add the measurement location straight away, so you know exactly where the measurement took place. You can then present the measurements clearly and easily by generating reports. Would you like to personalise the report to match your company's branding? Simply add your company logo and customise the report to meet your exact requirements. The HIC meter from Wireless Value makes measuring easy. Anywhere.

HIC Meter Platinum ASTM

Specifications

General

Charger type	USB-C
Battery type	ICR-18650 NH-SP
Accelerometer type	mems, 8mA per sensor (total 3 sensors)
Cover material	Synthetic material (POM)
Handle Material	Aluminium/synthetic material (POM)
Drop weight material	Aluminium

Sports & Play

EN 1177-A1 2024	yes
ASTM F1292	yes
EN 15330	yes

Legislation and standards

CE	yes

Technical specifications

Battery voltage	3.7
Battery capacity	2200mAh
Battery protection	NTC
Data collection	App (Android and iOS)

Dimensions

Flight case dimensions	L= 50 W=45 H=20
Diameter	160 mm ± 5 mm
Weight	4.6 kg ± 0.05 kg
