- Reliable measurements, great ease of use

HIC Meter Platinum Sport

Description

HIC Meter Platinum Sport

Wireless Value has developed a wireless version of the HIC Meter for the inspection, testing and certification of safety surfaces and sports pitches. This Platinum version fully complies with the standards and guidelines of the sports federations and EN 1177-A1 2024. The package includes the HIC Meter, charger, handle, app and web portal. Furthermore, it comes with sensors calibrated in accordance with EN ISO/IEC 17025 and a storage case. Our wireless HIC meters are used worldwide by manufacturers of sports flooring systems and certifying bodies. Quite simply because our HIC meters are head and shoulders above the rest in terms of technology, accuracy and ease of use.

Wide range of models

We incorporate our customers' feedback into the development of our meters. That's why we always have exactly the right HIC meter to take all the hassle off your hands.

World Rugby and FIFA

Naturally, our HIC meters comply with the manuals of the international sports federations. They are fitted with EN 17025-calibrated sensors.

Ease of use

Our meters provide rapid measurements that can be read instantly and easily via an app.

Market leader

The quality of our HIC meters is evident from the fact that they are used worldwide by major

companies and organisations for reliable measurements.

Innovative

Our HIC meters are equipped with the latest technology. You can add the measurement location straight away, so you know exactly where the measurement took place. You can then present the measurements clearly and easily by generating reports. Would you like to personalise the report to match your company's corporate identity? Simply add your company logo and customise the report to meet your exact requirements. The HIC meter from Wireless Value makes measuring easy. Anywhere.
