HIC Single Drop

- Fully compliant with EN 1177-A1:2024, test method 2
- Easy to use
- Rapid measurement
- All information on a single display

HIC Single Drop

Description

HIC Single Drop

The HIC Single Drop meter is the ideal HIC meter for testing existing playgrounds. With this meter, you perform tests according to 'test method 2' as described in EN 1177-A1:2024. We supply the HIC Single Drop meter with a display showing the following data: HIC value, G value, fall height and time of the curve (dT). Wireless Value's wireless HIC meters are used worldwide by municipalities, inspection companies, testing institutes and certification bodies, simply because our HIC meters stand head and shoulders above the rest in ease of use.

HIC Single Drop

Specifications

General

Charger type	USB-C
Battery type	ICR-18650 NH-SP
Cover material	Synthetic material (POM)
Handle Material	Aluminium/synthetic material (POM)
Drop weight material	Aluminium

Sports & Play

EN 1177-A1 2024	yes

Legislation and standards

CE	yes

Technical specifications

Number of batteries	1
Battery voltage	3.7
Battery capacity	2200mAh
Battery protection	NTC

Dimensions

Diameter	160 mm ± 5 mm
Weight	4.6 kg ± 0.05 kg
